Raven K-12 Launch

Your agency already knows the benefits of using Flock Safety Falcon® LPR. Your community schools can be part of that network with an affordable Raven® Audio Detection service designed to meet the needs of K-12 campuses. For $10,000 a year, your community schools can cover an entire school grounds with gunshot and firework detection devices.

What that means for your community: an affordable, extra level of public safety protection on school grounds. Your agency will get the benefit of integrating your Flock network with school gunshot detection for remote access to any potential incident around the school building. You'll be keeping students and staff safer while expanding your own Flock system.
